# Data Quality Statement

|            |      |       |
|------------|------|-------|
| Timeliness | High | ★★★★★ |
|------------|------|-------|

- ✓ Data is available quickly and frequently enough to support information needs.
- ✓ Time lag between the reference period and the actual date of release is short.
- ✓ The frequency of the data collection is specified (one-off basis or ongoing).
- ✓ Data is current and not released before it is superseded.
- ✓ Updates or revisions to the data are not made after its release.

|           |      |       |
|-----------|------|-------|
| Integrity | High | ★★★★★ |
|-----------|------|-------|

- ✓ Standard definitions, common concepts, classifications and data recording practices have been used.
- ✓ Elements within the data can be meaningfully compared.
- ✓ This data is generally consistent with similar or related data sources to enable data compilation and comparison.
- ✓ This data is consistent with previous releases (no significant changes to methodology or collection standards).
- ✓ There were no major changes in the way data items are defined, classified or counted since the start of the series.
