

Regional school suspension summary

Semester 2, 2025

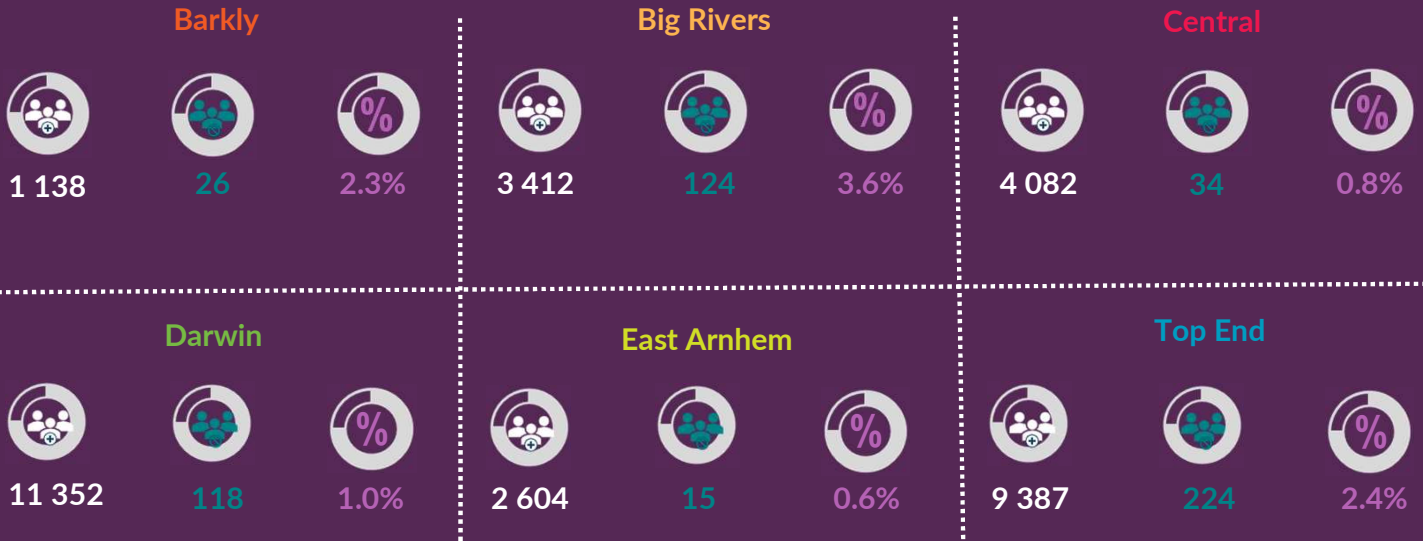

31 975
Average enrolments

538
Total students suspended

1.7%
Total proportion of students suspended

Average student enrolment

Number of students suspended

Proportion of students suspended

Supporting information

- Data is sourced from the Northern Territory (NT) Department of Education and Training's Enrolment and Attendance and Behaviour datasets.
- Figures are from current system data as at 15/01/2026.
- The average enrolment number is the average enrolments of students over the reporting period.
- Number of students suspended is the count of individual students who have had one or more suspension incidents.
- If a student is suspended in more than one school region, they are counted in each region but only counted once in the total. Therefore, the sum of students suspended across regions may exceed the NT total.
- Data on suspensions is subject to change. This data should be considered indicative only.
- Data is inclusive of NT Government schools only.
